WICKED PLAN - Intense & Melodic Heavy Metal

Bio (medium form // 300 words)

Natali and Dan established WICKED PLAN in 2012 with the clear vision to form of a high-caliber Melodic Heavy Metal band. With their second album OUT OF FIRE (2016) the band has revealed its musical passion: a blend of Heavy Metal and Classical elements with strong melodies and high intensity.

Line-up: **Natali Keller**, the singer with the powerful voice, influenced mainly by singers like Dio and Bruce Dickinson.

Dan Keller, Guitar virtuoso and songwriter, creates a distinctive blend of Heavy Metal and Classical elements with very strong melodies and high intensity.

Ed Cuennet entered the band in early 2016. He brought a new tone, drive and presence to the songs - powerful and melodic at the same time.

Ingemar Schübnel joined the band in late 2018 as new WICKED drummer. With influences from Death, Fusion, Classical and Indian music, Ingemar offers a lot of variety to the songs. He's driving the riffs and is responsible to set - together with Ed - the rhythmic basis for WICKED PLAN's catching songs.

OUT OF FIRE Album

In 2016 WICKED PLAN toured for 10 days in south-east Europe through Croatia, Bosnia, Montenegro, Serbia and Bulgaria to promote the OUT OF FIRE album.
