

## **WICKED PLANs Female Fronted Melodic Metal Album „Out Of Fire“ makes the hearts of old-school metal fans beat faster!**

*An expressive female power voice and virtuoso guitars. These are the flagships of the Swiss heavy metal band WICKED PLAN.*

*Friends of hard rock and power metal who are open for extravagant surprises should not miss this top-class album.*

WICKED PLAN was founded in 2012 by singer Natali Keller and guitarist Dan Keller with the aim to form a high-caliber melodic metal band. Natali, who studied vocals at the Academy of Contemporary Music (ACM) in Zurich, writes all vocal lines and lyrics and lends WICKED PLAN her expressive power voice, while guitar virtuoso Dan is responsible for the song writing and Orchestra programming. The band has recently been completed by drummer Yanik Allenspach, who studies drums at the Swiss Drum Academy and bass player Seb Vetter, who has a long experience with various Thrash bands.

Dan's compositions are inspired by guitar masters like Yngwie Malmsteen, George Lynch and Marty Friedman, but also by the great Baroque composers. At places where you would expect a rhythm guitar, classical orchestral elements are used to fill the harmonic space during the lead parts. This creates an energetic mix of artfully composed neoclassical elements and a good proportion of 80s hard rock. Nevertheless the songs always find their way back to the classic heavy metal.

Aki Sihvonen from the legendary Finnvox Studios – where already Children Of Bodom, Nightwish or Stratovarius have refined their albums – is responsible for the rich production of the ten songs.

Who now wants to convince himself of WICKED PLAN's clenched professionalism and its intense, unique heavy metal should watch their gloomy music video to the song „Wicked Plan“, the opener on the „Out Of Fire“ album. The Swiss rock in a fairytale forest and arouse the eerie „Monsters Of Metal“.

The band around Natali's power voice is also live an absolute attraction that you shouldn't miss under any circumstances!
